S.O.4

### DETAILED ACTION

Examiner has acknowledged Applicant's amendment to claims 1-8 and newly added claims 12-19 submitted on 10/10/2003. Examiner has acknowledged that claim 8 has been canceled.

Claims 1-7 and 9-19 will be examined for restriction purposes.

An election of species requirement for claims 1-7 and 9-19 is deemed necessary-as set forth below:

For claims 10 and 12, the claimed species are:

a) tropical root crops

For claim 14, the claimed species are:

a) symptoms and/or conditions

For claim 19, the claimed species are:

a) symptoms and/or conditions

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from claims 10, 12, 14 and 19 above for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that the reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1655

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a)

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirements be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randall Winston whose telephone number is 571-272-0972. The examiner can normally be reached on 8AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bruce Campell can be reached on 571-272-0974. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
